

Report of payments to government agencies 2025

This report has been prepared in accordance with the Swedish Law (2015:812) on reporting of payments to government agencies and refers to the financial year 2025. Boliden AB (publ) is presenting this report because the Boliden Group includes companies that conduct extractive industry operations. The report only includes information related to those payments to government agencies which are made by companies within the Boliden Group conducting extractive industry operations. On April 16, 2025, the Boliden Group acquired a Portuguese and a Swedish mining company. Payments made by these companies prior to the acquisition date have not been included in the report.

In accordance with § 6 of the above-mentioned law, all payments of amounts below SEK 860,000 have been omitted. Payments at project level are not reported because all payment obligations have arisen at company level.

All amounts in the below tables are in SEK million.
